

## TRAINING ANNOUNCEMENT

February 27<sup>th</sup> and 28<sup>th</sup>, 2018

08:30 – 1600

**Two day training session – Brentwood, CA**

The Brentwood Police Department is hosting \*free\* National Incident-Based Reporting System training which will be conducted by the FBI (Brad Zoladz).

On June 10, 2016, the Federal Bureau of Investigation (FBI) Uniform Crime Reporting (UCR) Program informed all states that the FBI will transition to a National Incident-Based Reporting System (NIBRS)-only data collection by January 1, 2021.

The National Incident-Based Reporting System, or NIBRS, implemented to improve the overall quality of crime data collected by law enforcement, captures details on each single crime incident—as well as on separate offenses within the same incident—including information on victims, known offenders, relationships between victims and offenders, arrestees, and property involved in the crimes.

Unlike data reported through UCR's traditional Summary System -an aggregate monthly tally of crimes- the NIBRS data goes much deeper because of its ability to provide circumstances and context for crimes. It includes all offenses within a single incident and additional aspects about each event, like location, time of day, and whether the incident was cleared. Ultimately, NIBRS will improve the detail and overall quality of crime data, which will help law enforcement and communities around the country use resources more strategically and effectively.

The trainer will be the same you are seeing here this week at CLEARs, [Brad Zoladz](#). Brad will help you learn about the transition to NIBRS and how it will improve the accuracy and timeliness of crime statistics, help identify crime patterns and trends and aid in crime prevention. If you have additional staff who need to learn about NIBRS or simply want a refresher, please join us!
